## Make the Most of Solar Energy

When your solar panels generate surplus energy or the state of charge (SoC) reaches a defined level, EP Cube automatically uses the excess electricity to supply household loads, charge EVs, or power heat pumps.

## Save More with Dynamic Pricing

When electricity prices fall below your set threshold, EP Cube automatically charges or powers selected appliances to help reduce your energy costs.

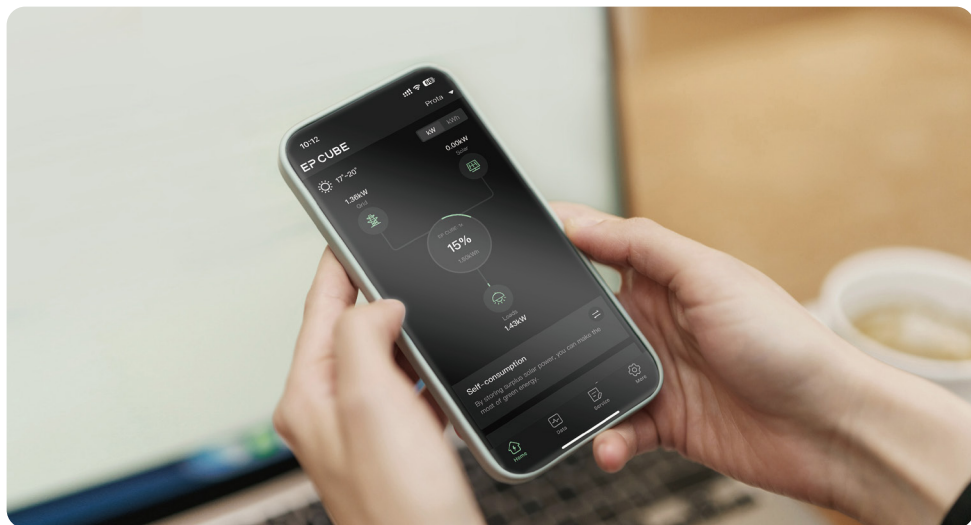

## Works with Your Smart Home

EP Cube enables smart home energy management by connecting to your appliances via Home Connect and advanced relay control, supporting SG-ready heat pumps for smarter energy use.

EP Cube Partners with Trusted Appliance Brands:

## Monitor Home Energy Anytime, Anywhere

With the EP Cube App, you can monitor your home's energy production, storage, and usage anytime, anywhere, as well as customize device operating strategies. EP Cube HMI shows your home energy in real time. Even when your hands are full, no phone needed. Check it anytime, right at home.
